

OPTI SPRAY

Nano Intelligent Disinfectant Spray Gun

From  **ULTI**

Nano Intelligent Disinfectant Spray Gun

New nano spraying technology to completely eliminate household pollution.

- + Nanoscale atomization
- + Ultra-long range spraying
- + No dead angle coverage

One machine, Many functions.

**Multiple
Scene Usage**

**Kills Harmful
Microorganisms**

**Lithium battery
2600 mA**

Repellent Mite

**Disinfection and
Sterilization**

**Room
Humidification**

In addition to daily sanitation and Disinfection, it can also replace:
Indoor humidifiers, Incense dispensers, Watering devices, Flower waterers,
etc.

Light-Weight Design

Only equivalent to the weight of a 1.5L
Bottle of Mineral water.

Dual - core processor : _____

Independent boost charging technology, powerful performance, lasting stability.

Even coverage without dead ends: _____

Reach hard angles.

Easy to clean thoroughly.

Nanometer atomization output : _____

Customized high pressure air pump and siphon atomizing nozzle above 5000 Rpm.

Jet distance up to 2.5 Meters : _____

Can be sprayed directly on the surface of the human body, fabrics, home appliances, and other objects, without the feeling of being wet.

Long life battery: _____

Equipped with 2500 mAh power lithium battery to ensure daily home use.

Large capacity : _____

No need to replace frequently with a 380mL large-capacity liquid tank for longer use.

Type-C charging port : _____

Fast charging, safe, and reliable.

Anti-clogging system : _____

The bottom of the suction pipe is designed with a fine filter ball to filter impurities and prevent the nozzle from clogging.

Note : Use continuous work standby for about one month. Continuous high-grade work can last more than 1h.
Note: The actual use time is affected by the use frequency, environment and other factors. the above time is for reference only.

Monitoring screen details

Autorun touch operation :

+ Three gear design

+ Flexible to respond to different user scenarios

+ High, Medium and Low levels for usability.

Liquid solutions:

- + Multi-effect disinfectant
- + Mint texture disinfection
- + No pungent smell
- + Non corrosive

Suitable for various disinfection solutions:

You can choose various disinfectants on the market to use.

Note: Please use volatile liquids (alcohol, etc) away from fire sources.

Technical details :

Product name: OptiSpray

Size: 202*67*213 mm

Weight: 850g

Working voltage: Dc 12v

Power: 25w

Liquid tank Volume: 380ml Spray

Distance: 1m-2.5m

Battery capacity: 2600ma Charging

Voltage: Dc5v1.5a

Instructions :

1- Put the solution into the container before use.

2- Turn on the switch, long-press the power button to enter the low gear, press once to switch to the middle gear and press again to enter the high gear, cycle in turn, and long-press the on the button to turn off.

Precautions :

1 when the battery is insufficient, the spray distance will become shorter.

2- when loading liquid, do not put it on its side, upside down, or shake it violently to prevent the liquid from entering the body from the air guide hole and damaging the equipment.

3 - do not use while charging.
